

MATERIAL SAFETY DATA SHEET

SECTION 1: Product and Company Identification

Page 1 of 3

Product Name: SAND RENU**N. Jonas and Co., Inc.
4520 Adams Circle
P.O. Box 425
Bensalem, PA 19020-0425****Issue Date: July 07, 2004****Telephone: (215) 639-8071****Only in the Event of a Transportation Emergency Involving Spills, Leaks, Fires or Accidents,
call CHEMTREC at (800) 424-9300.**

SECTION 2 Ingredient/Identity Information**OSHA PEL**

Sodium tripolyphosphate (CAS 7758-29-4)	5 mg/m³ (respirable dust) 15 mg/m³ (total dust)
Sodium hydroxide (CAS 1310-73-2)	2 mg/m³
Sodium silicate (CAS 1344-09-8)	Not Listed
Alcohol ethoxylates (CAS 68131-39-5)	Not Listed
Glycol ether EB (CAS 111-76-2)	120 mg/m³
Water	Not Listed

SECTION 3: Physical/Chemical Characteristics

Appearance and odor: Hazy yellow liquid, solvent odor
Melting point: Not applicable
Specific gravity: 1.05
Solubility in water: Soluble
pH: (@ 25 deg C.): 10.5
Vapor pressure: No data
Vapor density: No data

SECTION 4: Fire and Explosion Hazard Data**Flash point: Will not flash****Autoignition temperature: Not applicable****Flammable limits: Not applicable**

Extinguishing media:**Product will not burn. Use media suitable for surrounding fire.**

Special fire fighting protective equipment:**Self-contained breathing apparatus with full facepiece and protective clothing if involved in a fire of other materials.**

Unusual fire and explosion hazards:**None known**

SECTION 5: Reactivity Data

Page 2 of 3

Stability

Stable under normal conditions.

Incompatibility: This product should not be mixed with any other chemical product.

Hazardous decomposition products:

None

Hazardous polymerization:

Will not occur.

SECTION 6: Health Hazard Assessment

General:

Limited toxicity data are available on this specific preparation. This health hazard assessment is based on information that is available on the properties of its components.

Ingestion:

Relative to other materials, this product is classified as "practically nontoxic" by ingestion.

Eye contact:

This product can irritate human eyes following contact. The concentrated forms of the ingredients in this product cause severe eye irritation. However, because these ingredients are diluted, the potential to cause eye irritation is much reduced.

Skin contact:

This product can irritate human skin following contact. The concentrated forms of the ingredients in this product can cause skin irritation. However, because these ingredients are diluted, the potential to cause skin irritation is much reduced.

Skin absorption:

This product will probably not be absorbed through human skin.

Inhalation:

Inhalation of mists or aerosols will probably irritate respiratory passages..

Other effects of overexposure:

None known.

First aid procedures:

Skin: Wash material off the skin with soap and plenty of water. If redness, itching, or a burning sensation develops, get medical attention.

Eyes: Immediately flush eyes with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and treated by medical personnel.

Ingestion: Give 1 or 2 glasses of water to drink. If gastrointestinal symptoms develop, consult medical personnel. Never give anything by mouth to an unconscious person.

Inhalation: Remove victim to fresh air. If cough or other respiratory symptoms develop, consult medical personnel.
